

Banbridge Community Treatment & Care Centre

Location: Banbridge, Co. Down

Client: Health Estates Investment Group

Consultant: Cundall/URS

Architect: Kennedy Fitzgerald Tel: 02890661632

Project Manager: Ryan Nugent

Completion: October 2015

Value: £1.8m

The new multi-purpose Community Treatment and Care Centre combines a range of health services to cater for the community of Banbridge and the surrounding areas. From adult day care and community outpatient departments to therapy services for children, young people and mental health patients, this centre will be an important addition to the district's current healthcare provision.

The centre is fully equipped with outstanding facilities to meet the needs of each patient including a rehabilitation suite; sensory rooms; two dental clinics; health promotion programmes; specialist nursing services and a landscaped garden with wheelchair access. Michael Nugent provided full installation of all mechanical services, including all Gas and Water Supply Systems, Disposal Systems, Ventilation Systems and BMS and Control Systems.

Banbridge CTCC has won numerous awards since its construction including an RIBA Regional & National Award 2016 (now on the list for the sterling prize). It also won the RIAI Irish Architecture Health category, Best Public Building over £3m at the RSUA Awards 2016 and was highly commended at the European Healthcare Design Awards 2016.
